“Allow me to debunk some of the common myths and misconceptions of SOTA before I go.”

**MYTH
BUSTING**

**MYTH
BUSTED**

“SOTA is a tertiary institution.”

One of the biggest misconceptions EVER! SOTA is Singapore’s first and only national PRE-TERTIARY specialized arts school, targeted for youths 13-18 years old. The curriculum culminates in either the International Baccalaureate Diploma Programme (IBDP) or Career-related Programme (IBCP).

**MYTH
BUSTED**

“SOTA students can only pursue Arts-related higher education or careers after graduation.”

Not true at all!

SOTA alumni have gone on to pursue disciplines such as law, architecture, business, psychology, journalism the list goes on.

**MYTH
BUSTED**

“Students of SOTA just do arts all day.”

Says who? The Arts is one of the many subjects students study here. Students in SOTA also study academic subjects like Mathematics, Science, Mother Tongue Languages and the Humanities.

**MYTH
BUSTED**

“There is no sports or physical education for SOTA students.”

Oh, C'mon!

SOTA students work hard and play hard! It is compulsory for all students to undergo Experiential Education that includes sports and activities such as camping, kayaking and rock climbing.

**MYTH
BUSTED**

“One must have an awesome portfolio to even be considered.”

SOTA does enroll students without prior training or formal experience too.
Passion and potential are KEY here!

“SOTA is only for kids from well-to-do families.”

No need to worry! Students who are offered a place in SOTA can come regardless of their family's financial situation. SOTA has a wide range of scholarships and financial assistance schemes in place to support those in need.
