P4 Subject-based Banding (SBB)

HOW DOES SUBJECT-BASED BANDING (PRI) WORK?

@ PRIMARY 4

Student sits for school-based examinations

School recommends a subject combination based on the student's results.

Parents fill up an option form indicating the preferred combination.

@ PRIMARY 5

Student takes subject combination chosen by parents

English Language, Mathematics, Science and Mother Tongue Language are available at standard and foundation levels.

Higher Mother Tongue Language is also available.

School assesses student's ability to cope with the current subject combination at the end of the year. Adjustments to the number of standard and foundation subjects can be made, if necessary.

@ PRIMARY 6

Student takes subject combination decided by his school and sits for the Primary School Leaving Examination (PSLE) at the end of Primary 6.

Student A

At the end of Primary 4, school recommended Standard English and Science and Foundation Mathematics and Mother Tongue for Student A.

Parents opted for all subjects at Standard level. Student A will take 4 Standard subjects at P5.

School will make adjustment to the subject combination if deemed necessary.

School will assess Student A's ability to cope with the subjects at the end of P5.
